Selecte) Tale.

The Faithful Sentinel.

AN INCIDENT OF NATOLEON'S TIME.

(Concluded.) ' Diable ! here's an adventure !' uttered the officer, and he made Pierre

hold the lantern while he ripped open enough of the dog's skin to find the face. But they concluded not to stop there to investigate; so they formed a litter by crossing their muckets, and having lifted the strange animal upon it they proceeded on their way. When they reached the camp they found half the soldiers up waiting to find out why the gun was fired.

Lights were brought, and the body placed upon the ground. The dog's skin was removed, and within was found a Prussian drammer. He was a small fellow, though apparently some twenty years of age; but he was dead -Pierre's ball having touched his heart, or somewhere very near it. His pockets were overhauled and in one of them was found a cipher, but no one of them could make anything out of it. The Colonel took it, and directed that the body be put out of sight for

burial on the morrow. But this was not the end. About 4 o'clock, just before daylight, another gun was fired on the same post where Pierre had been; and this time a man was shot who was trying to make his escape from the camp He was shot through the head. When the body was brought in camp, it was found to be that of the Bavarian trooper, who had been suspected of treachery, though no proof had ever bafore been found against him. On his person was found the key to the cipher which had been taken from the person of the drummer; and now that the co onel had them both, he could translate the mystic scroll. It proved to be direction to the Bayartan to lay hi plans for keeping as near Napol. on's person as possible, after he should enter Berlin, and then wait for further

orders. The mystery was explained. The Bavarian had contrived to call the great dog away from the regiment, and deliver him up to the enemy, and his skin was to be made the cover for a spy, to enter the camp. And the spy would have got in, too, but for the sportive order of the Colonel, and the wilfully faithful of Pierre Sancoin.

On the next day Pierre was promoted to the rank of a Surgment, and the Emperor said to him, as he bestowed the boon: "If you only make as faith-ful as a sentinel, I ask no more.

The Waste of Manures.

Messrs. Editors :- In my first communication to your paper on this subject, I considered the waste arising from the barbers' shop only. I will now direct the attention of your readers to the consideration of the still greater waste arising from the wasted scraps from the boot, shoe, harness, whip and portmonic factories. I have no means of knowing the whole amount of waste arising from the above sources, but the true value of such elements as fertilizers, I know well both from chemical analysis and from practical experiments. Yesterday into a harness shop and inquired of the head man what he did with scraps.-Said he, I burn them up in winter, and throw them out in summer, as you see here before my shop. But do you know their value as a fertilizer? Yes, said he, I know it well, for I am an Englishman, from the county of Sussex, England, where all the farms are under better cultivation than the best gardens in this country. There I sold all the scraps I could save, for four cents a pound'; but here I should have to hire the farmer to draw them away from me. But I have made up my mind, said he, that farming in this country is all a sham, any way. They don't know the first thing about it. I was told by a shoe-factor in Connecticut, about two years ago, that he burned up at least three tons of scraps a year, worth to him not more than one-fourth of a cent a pound, and perhaps not half of that. On the average, not more than nine or ten hands were employed in the shop to which I refer,

What an immense waste there must be in the New England States, and especially in Massachusetts and Connerticut. It is a singular fact, too, that all the farms, all around the factories referred to, have the greatest need of these wasted elements. Yet they will burn up and throw to waste thousands of tons annually, of the very elements they are now importing, under the name of guano, at an expense at least ten times greater. Among these elements of waste, I include all the old

boots, shoes, harness and other scraps, wasted annually from every farm-house in the land. The time, I trust, is not distant when factories will be started m overy section where the elements of waste are sufficient to warrant it. · the monufacture of the wasted hair and leather, into a fertilizer equal in value to De Burg's best, at least.-[Country Gent.

Dahltas-Potting Tender Plants.

Towards the and of this month, or the beginning of November, the top of dahlias will be killed by the frost After digging up the roots, preserve them from frost in the same manner as penatoes, as they are equally hardy Examine during the winter, and remove any decayed tubers, as these wil integrathose in immediate contact with them. Packing in dry sand in a barrel is a good method of preserving dahlias.

All tender plants, such as verbenns, geraniums, &c., that have not yet been removed to the frame, or house, must have this operation performed immediately. Carnations must be placed in cold frames—so must temler roses. The latter may be laid in by the heels, and by this means space will be saved. The soil to be used for the different sorts of plants will differ with the species. It is necessary, however, to have good sharp sand, leaf mould, and a portion of rich loam in nearly all composis. Well rotted cow manure is often useful, and there is no better manure for potted plants. Guano may also be used sparingly .-- [Ohio Farmer

Hens and Eggs.
For several years past I have spent a few weeks of the latter part of August on the Kennebec river, in Maine. The lady with whom I have stopped is a highly accomplished and intelligent housewife. She supports a "hennery," intelligent and from her I derived my information in this matter. She told me that for many years she had been in the habit of administering to her hens with their common food, at the rate of a teaspoonful of cayenne pepper each alternate day to a dozen lowls. Last senson when I was with ber, each morning she brought in from twelve to fourteen eggs having but sixteen hens in all. She again and again experimented in the matter, by omitting to feed with the cayenne for two or three days. The consequence invariably was, that her product of eggs fell off to five or six per day. The same effect of using the cayenne is produced in winter as well as in summer.-Boston Transcript.

EXPOSTULATION.

Ir some kind wealthy friend should wait An earnest suppliant at your gate, Should knock and ask admittance there To make of you his happy heir. How long would you delay in doubt, And keep your benefactor out? Would you his precious pift condemn, Would you his precious gift condemn, And treat with scorn both him and them?

How oft your Friend, from heaven above, Has knocked and told you of his love; Has knocked and told you of his love; From day to day, from year to year He calls, but oh, yea will not hear! He offers you the pear! of price, His own must costly merchandise, A heavenly hause and heavenly lands, A seat among the angel bands.

Say, is it wise in you to shun
A brighter cruwn than kings have won;
A fortune richer far than all
The gold of this terrestrial bail,
And glory such as never shone
Around an earthly monarch's throne?
Oh! is at wase in you to slight
Unfading joys, unmixed delight?

Arouse you from your sleep of sin,
And let your heavenly Friend come in;
Once more he knocks, oh! hear his voice,
And you shall in his love rejoice.
The hars temper, the deer throw wide,
And bid him in your heart abide;
On earth be Christ your walcome guest,
In heaven with him be ever bleet.

NEWPORT DAILY NEW3.

TUESDAY MORNING, NOV. 3, 1857.

Mormondom. It is known to our readers that a U 3. military force has been for some time on its way toward the territory of Utah-the Mormon empire-with a view to the enforcement of the laws of the U. States in that quarter. It is probable that the federal troops have by this time reached Salt Lake city, the Mormon capital; and the next intelligence will in all likelihood be that a violent collision has taken place between them and the fanatical hosts of Brigham the false prophet.

The last accounts from Utah represented a great excitement as already prevailing among "the saints," in consequence of the approach of the U.S. troops; and savage speeches were being addressed to the people by Young and Kimbell, who both exhorted their followers to draw the sword in defence of their "church," their homes, and the sacred city. They were told to fire the prairies, to refuse all supplies of food to the military invaders, and to spare no means for their ex termination.

Under these circumstances, the effusion of blood seems all but certain-unless, indeed, the courage of the Prophet and his disciples should elib rapidly, and they should conclude to pack up their effects and escape to some of the Indian settlements, just before the arrival of the military.

It is barely possible that upon "sober secand thought," Brigham may conclude, as Falstaff did, that "discretion is the better part of valor," and wisely prefer to avoid a conflict after all his bluster. But we fear he has not sense enough. He is the the civil and ecclesiastical ruler of Mormondom, and his conceit is not a whit behind his vulgarity and fanaticism. It could not well be greater. And his right hand man, Elder Heber C. Kimball, is like unto his master-a rude, coarse-grained ignoramus, whose public addresses are all the evidence one could ask of his gross vulgarity, folly and profanity.

"Tis an ill will that blows nobody any good," saith the proverb. Yea, verily worse than the financial toranado that every body is now complaining of-the sweeping tempest that has broken so many merchants stopt so many factories, suspended all the Banks, and thrown such multitudes of people out of employment. This has been indeed a terrible storm, but the Divine Wisdom is able to bring light out of darkness, and substantial good out of this apparent and appailing evil. There are doubtless bright skies and a healthful atmosphere not far ahead.

But we do not need to wait for these, in or der to profit by the great lesson of adver sity which has just been given us. Retrenchment of needless expenses; the practice of personal and domestic economy; the great and imperative duties of Christian charity-are not these things, even now especially incumbent upon us all? Let us be up and doing then, without delay.

SUSPENSION OF HARPER & BROTHERS. The N. Y. Courier and Enquirer says in

"The suspension of Harper & Brothers is one of those events for which those who know t em best, were not prepared, even in these times. With bonds and mortgages on productive real estate in this city, for more than four times the amount, and only asking to have their line of discount restored within \$5,000 of what it should be and with the solemn assurance that without the aid asked, they must suspend and disthe aid asked, they must suspend and dis-charge between six and eight hundred per-sons in their employ—they were coldly per-mitted to go by the board, and thus be com-pelled to bring distress and want among sev-tions of present the wrea directly doeral thousand persons who were directly dependant upon them for employment! Who is benefitted by this system? In the mercaptile history of this city, the case has no solutely to make the heart bleed."

MEETING OF TWO KEEN POLITICIANS -Ex-Gov. Seward and Senator Douglas, were in attendance at the Railroad Convention in Chicago on Friday last. Senator Douglas, in a few brief remarks to the convention, passed a glowing tribute to the distinguished S notor from New York, whom he had ever found aiding and assisting in every measure calculated to benefit the West, and, except in politics more often acting with him in the United States Senate than otherwise.

THE BRITISH FORCES IN AND EN ROUTE TO INDIA. - We are enabled, after a careful research, to present our readers with a tabular statement of the force in India up to the end or September; and the force which, since May last, has been dispatched to the three presidencies named. We also apstatement of the number of Euro peans in the service of the East India Company, and the number of native troops dis-banded and mutinied. From this it will appear that in Bengal about the time of the mutiny there were 21,968 Queen's troops; in Mauras, 1312; and in Bombay, 2466; besides the 16,353 European troops in the service of the East India Company. Since May there have been sent to Bengul 10004. 19,994 troops of all arms; to adrag 213 troops, and to Bombay 4615. while we estimate the troops ordered to China and Mauritius as "in India" we have not placed the six regiments expected from the Cape as cur route. These may be estimated at who generally manage to maintain their asabout 4,000 men.-London Press.

THE LECTURES.

It is with pleasure shat we inform our readers and the public generally that the permittee of the Aquidneck course of Lecures have succeeded in procuring the Rr. REV. THOMAS M. CLARKE, D. D. to deliver the introductory Lecture of the course on Thursday next, the 5th inst. Bishop Clarke is in every way the most suitable person for this task and his unquestionable ability and popularity will, we doubt not, fill Aquidneck Hall to its utmost capacity. Rev. Henry Ward Beecher will we are assured, lecture during the course, together with others of well known reputation whose names appear on the committees' list.

The entertainment given last evening at Aquidneck Hall by the celebrated MO-RAVIAN MAGICIAN, was unusually sucessful and hundreds who were unable to attend will, without doubt, avail themselves of the opportunity which is offered them to-night of witnessing this great FAKIR before he leaves us for his engagement in Boston.

Those who have small mechanical obs to be performed, that they mean to have performed at any rate, and that they can afford to do at any time, would render the best possible assistance to worthy mechanics by having them done now when work is slack and a hard winter coming on. Few sights are more painful than an honest man seeking in vain for work. There are many such men among us. They do not obtrude themselves upon the public; they have been accustomed to lives of independence, and have not known what it is to be out of employment. Whoever has work to be done, should, if he can without too great sacrifice, order it now.

GOOD ADVICE FOR THE TIMES .- Pay your debts to the very utmost of your ability. Do not make the general collapse an excuse for needless unfaithfulness to your creditors since that is to protract the agony, and increase its desolations. If every one who owes a debt, which he can pay, were to pay it at once, a general feeling of relief would diffuse itself, which might inaugurate the desired action. The general pressure is but an aggregate of individual insolvencies. If the interior would only pay halfits debst to the seaboard within a month, the black cloud which envelopes us would disappear.

Major J. B. Weeden is still successfully employing his energies and those of his workmen in completing the two beautiful stores on Thames-street, which have been undergoing repairs for the last few weeks, and we are pleased to see that they will be not only a great ornament to the business portion of the city, but a great convenience to our friends R. J. Taylor, and R. H. Stanton, who are to occupy them as soon as they are finished.

It will be seen by reference to our advertising columns that there will be a sale to-morrow, (Wednesday), in Providence, of the articles saved from the wreck of the Bark Parodi, which was wrecked a few weeks ago on Block Island. This sale will no dou b present a fine apportunity for those of our friends in this city who wish to obtain such articles as are enumerated in the advertisement, at a reasonable, not to say low price.

It will be seen that the time of sale has be en arranged so as to meet the convenience of those who wish to attend it from this city, and yet return again the same day in the steamer Perry.

Correspondence of the Daily News.

NEW YORK, Oct. 31, 1857.

Mr. Editor,-There is a continued and manifest improvement in the financial and parallel; and madness and the most engregious folly must have prevailed at the Board commercial sphere—more cheerfulness and act. We are quite sure that no failure ever suspensions, cart-loads of gold coming in took place here which has excited greater or from abroad, and a better prospect all more merited sympathy; while its conse-quences to their employees are such as at round. Still there is an immensity of operatives, of both sexes and in every department of business, out of employ; and it will require a vast effort, on the part of those who have means at command, to forestall the prospective want and woe of the coming winter.

Atmospherically, we have had a gloomy and uncomforable week,-cold, rainy, muddy and Novemberish,-such weather as every body teels inclined to grumble at, but ? which I suppose, if viewed philosophically, would be found to be "all right," and perhaps quite as proper in the providential ordering of our lives and their surroundings, as the baimy breath of May, or the bracing air of September.

The politicians are astir, in all the wards and districts, trotting out their candidates, and making ready for the State Election, which occurs on Tuesday. There has been a suspension of hostilities pro tem, declared between the Republicans and "Americans," who are generally at war here) and a Union county ticket agreed upon for Judges, Surrogate, etc., in opposition to the Buchanan Democracy. But its success is hardly to be looked for—the city government and all the federal offices here being in the hands of the unscrupulous party last named, cendancy by dint of free liquor and artfulappeals to the poverty, cupidity and ignorance of the locust heat of loreigners.

clerks pertaining to them comprise a force of nearly one thousand men.

Of the eight or nine hundred suits brought by the District Attorney against the Sunday grog-sellers, the Recorder has quashed 125 indictments that were brought into the Court of Sessions by the grand jury. His Honor is a special friend and favorite of Mayor Wood, and these dignitaries both understand the necessity of fighting for the Sunday rummies, if they want the Sunday rummies to fight for them and their party-and they do.

Mr. Simeon Draper, Police Commissioner elect, does not seem to have got his mind made up yet, as to the acceptance or rejection of the office thus proffered to him on Mayor Wood's motion. Simeon moves as slowly as did the renowned Wonter Van Twiller, one of the ancient Dutch Governors of this colony, who was accustomed as saith the veritable chronicler, to "fall into a profound doubt" whenever any knotty question was propounded for his solution-and be had to take his pipe and smoke himself out." Perhaps Simeon will never emerge from the doubt he seems to be in until he is 'smoked out." But, meantime the peace and safety of the great city are jeoparded.

The everlasting Madam Cunningham, whose trial on the bogus baby charge has been postponed on account of the illness of one of her counsel, was summoned before the Supreme Court vesterday, and required to find other and better bail in the sum of \$10,000, than she had hitherto furnished one of her former bondsmen having got is to the "jug," on a charge of being concerned counterfeiting.

An exciting trial for murder-that of a conner Cuban, of the name of Cueva for voting Cutain, of the name of Cheva for shooting another young man, Oscar de Granval—has been for some days in progress at Hoboken. It seems a reasonably clear case against the culprit, but there is no certainty of convicting or punishing murderers now-a-days.

The total arrivals of foreign emigrants at this port, for the last ten months, has been upwards of 158,000, being an increase of forty thousand over the corresponding

GOOD COURAGE .- A horse attached to a U. S. Mail wagon took fright yesterday, and running away in roadway near Canal street, upsel the wagon on its side, and continued to run with it nearly a block in this position. The driver, whose name is HUGH MC KEON, stuck to the reins like a clestnut ourr, and after being dragged a considerable distance through the mud, succeeded in stopping the horse. His escape from mortal injury was truly wonderful.—N. Y. Sun.

A Crown or Visitors.—A curious illus-tration of the way in which much of the time of city clergymen is consumed, was given in a speech of the Rev. Dr. Vinton, in the late Episcopal Convention of New Dr. Vinton said he had promised his servant girl a present of a pair of shoen when she had gone to the front door 200 times. The promise was made on Monday morning, and the shoes were earned by ten o'clock Wednesday morning.—Boston Bee.

THE Quebec Board of Trade have passed a resolution declaring the opinion that the banks of Canada should forthwith suspend specie payments, in order to prevent the transfer of a large amount of their coin and bullion to the United States.

of the present day. Every family throughout this land should be acquainted with its
intrinsic value, and thereby caupe the many
evils arising from the use of common Saleratus—the caustic impurities of which are acknowledged destructive to health, by physicians generally Common saleratus has the
elements of caustic alkali, and readily acts on
the conting of the stomach, thus deranging
the digestive organs and paving the way of
Dyspepsia and diseases of every kind. Children are the greatest sufferers and frequently
die from infantile diseases, which in former
years, were successfully treated, even without

James Pyle's Dictetic Saleratus,
the result of many experiments, is entirely
different from everything heretofore in use.—
The perfection reached in purifying it, makes
it as harmless to the stomach as flour itself,
while in point of nicety it surpasses the best

Testimony in favor of Prof. O. J. WOOD'S Hair Restorative Voluntary Certificates, of which one will be published every week.

No. 11.

DEA SIR: By the advice of a friend of mine, who had been using your Hair Restorative, I was induced to try it, discovering to my great astonishment, that my friend's hair, which when, I leat saw him before, was very grey, had been completely restored to its natural color, having as fine, glossy appearance as it had when I knew him twenty years ago. I commenced using the Restorative about five weeks ago, and am perfectly convinced that it will produce the desired effect, it having restored the color of my hair, more than half of which was white, to precisely the same as it was when I was twenty years old, with the same healthy and glossy appearance, I have no healthy and glossy years of the productions they will not be disappointed, Yours very rea, enfully

DEATH OF A PILOT.

Wareham. Nov. 2.—Capt. Rumpus, branch pilot of this port, died yesterday, agel 53 years.

Mr. White of this town was drowned on

Saturday last, while oystering. His body was recovered yesterday. He leaves a wife

and four children. THE MORMONS.

N-w York, Nov. 2—The Times' Nebras-ka correspondent announces the arrival in that territory of divers Mormon describers, who left salt lake city in October. They bring two weeks later intelligence which, if true, is of high importance. They say that Brigham Young, at the head of a large force, was preparing to leave Salt Lake City, to give battle to the United States troops.— They allege that the Mountain Pass, at which the Mormons will attempt to check the progress of the troops, is one that in a military point of view, will give them over-whelming advantage; that, in their rehellion, they will receive material aid from the Indians, and, that their ultimate design is to throw off all allegiance to the Union, and establish an independent government.

ALPINE HAIR BALM

Restoring Grey Hair to its original Color. AT Warranted to cure Baldness, Scurf. This Bain gives, the scalp a new and healthy action; respores the coloring matter to the root of the Hair, which passes through the Hair and gives a natural color without the use

Mr. Mason, Sir :- I have found a Hair Restorative in your Alpine Balm, which has not merely changed the gray locks for their origi-nal, but has given them a glassy hue, which be-

fore they never had.

Providence, July 30, 1857.

C. A. P. Maxon.—Dear Sir—I am now using the Alpine Hair Balm, which I had of you, with most happy results. On the 30th of June last, my hair (which had been gray for more than six years) was fast falling off; but on the third application of the Balm it ceased falling, and is now firmly rooted, and very nearly its original color. By the use of one buttle, I confidently expect a complete, permanent, luxuriant and original head of hair. If every gray haired skeptic would try if, they would som hecome "living epistles, known and read f all men," as having used the Alpine Hair Balm. Yours, &c.

TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

Mr Muson, Sir-I write to inform you how pleased I am with your Alpine Hair Balm.—
My hair has been gray for a number of years, and I have been obliged to wear a front piece and cap; but have always found a difficulty when having a bouncet on to keep the frant piece from working back and showing the white hair. Finally I concluded I would try your Aipine Hair Balm; I used one bottle only and my hair has come back to its natural color, which was brown. My hair is now perfectly free from danking and is soft and glossy. Very respectfully, SARAH LYON.

A CARD TO THE LADIES.

Da Duronua's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully caneio us in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health, unitess shales regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a ramedy has been the cause of so many consumptions among young females. Headanhe, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price 31 per hux. For sale at 122 Thames street, corner Church street, and at 12 Washingtus Square, unposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing & to STURGINS CO. Box 801, Newport Fost Office, can have the Pills sent (con identify) by mail to any part of the city of country.
